

Dear FCC,  
Please do not permit Sinclair to proceed in their blatant attempt to use the public airwaves to influence a national election. Forcing their affiliate stations to air extremely biased programming days before the election is unacceptable meddling.

Like many Americans, I am beginning to see the airwaves (or media misuse of them) as a danger rather than a national resource with the ability to inform, entertain, and provide a full range of opinion.

Thank you for considering this concern. I hope that you will step in and prevent this unfair use of Sinclair's corporate power. Why should this company's wealth and the power granted it by the FCC give it a greater voice than other Americans?

Sincerely,

Nancy Lorince
